Moving files from PC-pool to your laptop

- In the field Host type: pool01.chemie.fu-berlin.de
- In the field User add your chemNet username, and connect
- On the left are shown your files, and folders, while on the right are files in your chemNet account

The screenshot shows the FileZilla interface with a Site Manager dialog box open. The dialog box is titled "Site Manager" and has a "Select Entry:" section on the left with a tree view showing "My Sites" and a "New site" entry. Below this are buttons for "New Site", "New Folder", "New Bookmark", "Rename", "Delete", and "Duplicate". The "General" tab is selected, showing fields for "Host:" (pool01.chemie.fu-berli), "Port:" (empty), "Protocol:" (SFTP - SSH File Transfer Protocol), "Logon Type:" (Ask for password), "User:" (saleksic), "Password:" (empty), "Account:" (empty), and "Comments:" (empty). At the bottom of the dialog are "Connect", "OK", and "Cancel" buttons.

The background shows the FileZilla interface with the following details:
