

SEMINARS

IN EVOLUTION & ECOLOGY

WS 2021/2022 MONDAYS 12:05

- 25.10 P** **How to study bacterial colonisation of plant leaves one cell at a time**
Mitja Remus-Emsermann (Inaugural lecture, FU Berlin)
- 01.11 P** **Impact of competition on parasite virulence**
Alison Duncan (University of Montpellier)
- 08.11 P** **What the fly gave me: Lessons about insect antiviral immunity**
Carla Saleh (Pasteur Institute, Paris)
- 15.11 P** **Cancer evolution: From cells to species and back**
Michael Hochberg (University of Montpellier and Santa Fe Institute, US)
- 22.11 P** **Ecological dynamics and therapeutic impacts of bacteriophage (a not-so-perfect predator)**
Joshua Weitz (Georgia Institute of Technology, US)
- 29.11 W** **Rapid evolution: From genes to communities and back again**
Lutz Becks (University of Konstanz)
- 06.12 P** **Keywords: Evolutionary ecology, disease dynamics, public policy**
Jessica Metcalf (Princeton University and WIKO)
- 13.12** No seminar
- 10.01** No seminar
- 17.01 P** **Shared urban landscapes for biodiversity and people**
Tanja Straka (TU Berlin)
- 24.01 P** **Keywords: Human evolution**
Martin Kuhlwilm (University of Vienna)
- 31.01 P** **Microbial determinants of herbivory in tortoise beetles**
Hassan Salem (MPI Tübingen)
- 07.02 P** **"Those who can, do. Those who understand, teach." - Professional competence of biology teachers**
Daniela Mahler (Inaugural lecture, FU Berlin)
- 14.02** **TBA**

P – SEMINAR WILL BE HELD IN PRESENCE IN THE LECTURE HALL OF KÖNIGIN-LUISE-STR. 1-3. WE WILL TRY TO MAKE THESE SEMINARS AVAILABLE ONLINE VIA WEBEX, BUT DUE TO POTENTIAL TECHNICAL ISSUES ON THE DAY OF THE PRESENTATION, WE CANNOT PROMISE THAT IT WILL BE POSSIBLE

W – SEMINAR WILL ONLY BE HELD ONLINE VIA WEBEX
