

Permanent announcement for the *summer & winter term 2014/15*

Student assistant (41, 60 or 80 monthly hours) at the Department of Biology, Chemistry, Pharmacy - Multitrophic Biodiversity

Responsibility:

Assistance with one or both following tasks:

- Assist with field work: mapping and collecting samples from water-filled tree holes in three different regions of Germany – Schorfheide-Chorin, Hainich and Schwäbische Alb.
- Identification of insects.

Desirable:

- At least completed 2 semester
- Not mind or preferably enjoy working outdoors, in possibly inclement weather
- Field work/research experience and interest in ecology
- Tree-climbing experience would be preferred
- Excellent knowledge of spoken English
- Ability to work conceptually and independently

Duration of agreement:

- 3 months

Vacant positions will be filled again successively. There might be waiting times.

Please send your application quoting the **reference code**

Tree2014/15 with the usual documents (letter of application, curriculum vitae, certificates of qualifications, student enrolment certificate) directly to jana.petermann@fu-berlin.de.

For further information please contact aroberts@oswego.edu, Tel.: (030) 838-56995.

Women are explicitly encouraged to apply. Handicapped applicants will be preferred in case of equal qualifications. Applications from people with a migration background who meet the recruitment requirements are desirable.

Interview costs cannot be covered by the Freie Universität Berlin.
Application documents will not be returned. Please submit your documents only in copy.
