

Permanent Announcement

- Vacant Positions –

For the DFG funded project “MetacommuniTree - Land-use effects on patterns and processes in decomposer metacommunities in tree holes” we offer several vacant positions for

Student Helpers

The monthly working hours are 80 hours (min. 3 months, max. 6 months)

The task will be to assist with field work and therefor mapping and collecting samples from water-filled tree holes in three different regions of Germany – Schorfheide-Chorin, Hainlich and Schwäbische Alb. For further information on the scientific topic of the project please visit [AG Petermann](mailto:AG.Petermann@fu-berlin.de) as well as <http://www.biodiversity-exploratories.de/1/home/>.

Desirable:

- B.Sc. in biology or related field of study
- Not mind or preferably enjoy working outdoors, in possibly inclement weather
- Field work/research experience and interest in ecology
- Tree-climbing experience would be preferred
- Excellent knowledge of spoken English
- Team spirit
- Ability to work conceptually and independently

Please send your application with the usual documents (letter of application, curriculum vitae, certificates of qualifications, student enrolment certificate) directly to

Freie Universität Berlin – Fachbereich Biologie, Chemie, Pharmazie , Institut für Biologie – Zoologie AG Petermann, Prof. Dr. Petermann, Königin-Luise-Str. 1-3, 14195 Berlin

Or by e-mail to:
