

SEMINARS

IN EVOLUTION & ECOLOGY

SS 2024 MONDAYS 12:05

- 22.04 Social interactions in non-human primates: mother-infant relationships and the emergence of gestural communication**
Federica Amici (Max Planck Institute for Evolutionary Anthropology, Leipzig)
- 29.04 Towards an accurate accounting of biodiversity change**
Shane Blowes (German Centre for Integrative Biodiversity Research, Halle-Jena-Leipzig)
- 06.05 Complex morphologies, many genes, and a plethora of challenges - What we learnt from eye size variation in *Drosophila***
Nico Posnien (Georg-August-Universität Göttingen)
- 13.05 The evolution of inherited arthropod symbionts**
Michael Gerth (German Centre for Integrative Biodiversity Research, Halle-Jena-Leipzig)
- 20.05 Whit Monday – no seminar
- 27.05 TBA**
Jacek Radwan (University Poznan, Poland)
- 03.06 Hyena and the jay: Long-term research and the birth of behavioral ecology**
Erika Milam (Princeton University & Wissenschaftskolleg zu Berlin)
- 10.06 Unveiling the evolution of the largest plant genus in Greece (Centaurea, Asteraceae): integrating genomic and morphological data**
Konstantina Koutroumpa (Botanical Garden Berlin)
- 17.06 Toxins or medicines? Exploring the mechanisms of medicinal diets in an aquatic host-parasite system**
Kristel Sanchez (Leibniz Institute of Freshwater Ecology and Inland Fisheries, Berlin)
- 24.06 Interactions between host antimicrobial peptides and bacterial anti-AMP defenses determine infection outcome in *Drosophila***
Brian Lazzaro (Cornell University)
- 01.07 Predicting and understanding species interactions from large ecological data**
Florian Hartig (University of Regensburg)
- 08.07 TBA**
Lotta Kluger (Center for Ocean and Society, Kiel)
- 15.07 TBA**
Tanja Straka (Freie Universität Berlin)

SEMINARS ARE PLANNED TO BE HELD IN HYBRID: IN PRESENCE IN THE LECTURE HALL IN THE ZOOLOGY BUILDING, KÖNIGIN-LUISE-STR 1-3, AND VIA WEBEX.
