Application for external conduction project module and/ or Bachelor's Thesis – Bachelor Biology (Combi, StO/PO 2020/2023)

It is possible to do the practical project module and/or the Bachelor's Thesis external, which means outside the Institute of Biology of the Freie Universität Berlin (FU Berlin), Germany. The external conduction requires the student's application and agreement by the examination committee. Detailed information can be found within the study regulations for the named study program.

Conditions: A **local supervisor** specialized in the project's research area and holding a permission for taking exams (corresponding to German title 'Professor/in' or 'Privatdozent/in'). He/She will be responsible for supervision and evaluation of the student and confirms the correctness of the data filled in below. The grade for the Bachelor's Thesis is given through evaluation of the Bachelor's Thesis of two supervisors, one supervisor must be associated to the Institute of Biology of the FU Berlin.

After successful conduction of the **project module** the supervisor will issue a certificate. The certificate has to be handed in at the office of examination and requires to contain the following information: The student's name and number of enrollment, the supervisor's name and institution, name of the module, number of credits, project title. For the project module the evaluation is based on a presentation about the student's practical work.

For Combi-Bachelor-Students of the **2020** study and examination regulations, the module comprises **8 LP** and includes the project and laboratory work as well as lecture and exercise on biostatistics. The module is graded undifferentiated (pass/fail).

For Combi-Bachelor students of the **2023** study and examination regulations, the module comprises **5 LP** and includes the project and laboratory work. The module is graded undifferentiated (pass/fail).

☐ **Herewith I apply for the external conduction of the project module**

☐ **Herewith I apply for the external conduction of the Bachelor's Thesis** (*Please note that this application only refers to the expected external conduction of the Bachelor's Thesis. In order to register for the Bachelor's Thesis itself the forms "Requirements for admission to the Bachelor's Thesis" and "Application for registration of the Bachelor's Thesis" naming a second supervisor belonging to the Institute of Biology at Freie Universität Berlin must be submitted. All admission requirements must be met in accordance with the respective study and examination regulations.*)

Description of student's project: (Project area, subject, description of practical work)

.....

Supervision by: (Name of supervisor, including titles)

Location: (Postal address of supervisor and institute, e-mail, stamp)

.....
