

SEMINARS

IN EVOLUTION & ECOLOGY

SS 2025 MONDAYS 12:05

- 28.04 Modelling for the Kunming-Montreal Global Biodiversity Framework**
Damaris Zurell (University of Potsdam)
- 05.05 Genomics tools enhance wildlife conservation management: case studies from SE Europe**
Elena Buzan (University of Primorska, Slovenia)
- 12.05 Implications of Sex-Specific Genomic Differentiation in the Great Tit (*Parus major*) Species Complex**
Toni Goßmann (TU-Dortmund)
- 19.05 Evolutionary Ecology of Aging**
Dario Valenzano (Leibniz Institute on Aging - Fritz Lipmann Institute (FLI), Jena)
- 26.05 Response of aquatic plants to multiple stressors and consequences for ecosystem functions**
Sabine Hilt (IGB Berlin)
- 02.06 Why studying causes of death to better understand evolution of ageing and longevity?**
Samuel Pavard (Paris Cité University, France)
- 09.06 No seminar**
- 16.06 Biodiversity Monitoring South Tyrol - a monitoring scheme in an Alpine region**
Andreas Hilpold (EURAC Research, Bolzano, Italy)
- 23.06 Evolutionary causes and consequences of sibling rivalry and siblicide in spotted hyenas - Hamilton rules ok**
Heribert Hofer (IZW Berlin)
- 09.06 No seminar**
- 07.07 Marine food production: a social-ecological perspective**
Lotta Kluger (Center for Ocean and Society, Kiel)

SEMINARS ARE PLANNED TO BE HELD IN IN PRESENCE IN THE LECTURE HALL IN THE ZOOLOGY BUILDING, KÖNIGIN-LUISE-STR 1-3, AND VIA WEBEX. FOR LAST-MINUTE CHANGES, SEE HERE:

<https://www.bcp.fu-berlin.de/en/biologie/vortraege/zoo/index.html>

IF YOU WOULD LIKE TO RECEIVE THE WEBEX LINK, CONTACT MATHIAS.FRANZ@FU-BERLIN.DE.

LIST UPDATED: 25TH MAR. 2025
